

# High Energy Breeding

## DESCRIPTION

This product is intended for the reproductive stage of medium and large-sized species which, in addition to needing a high quality protein-rich diet during this time, they also benefit from a fatty acid profile rich in palmitic acid (*Ara*, *Psittacus*, *Poicephalus*...).

High Energy Breeding is formulated to stimulate reproduction. It contains high levels of protein with suitable amino acids for this stage. Moreover, it is formulated with particular focus on the fatty acid profile and Omega 6 and Omega 3 contribution. The concentration of vitamins and antioxidants of this product is higher than in the maintenance formula in order to satisfy the increased requirements during breeding season.

## FEEDING RECOMMENDATIONS

High Energy Breeding is designed to constitute 100 % of the parrot's diet. However, if fresh fruit and vegetables are provided daily to give variety to the diet, Psittacus High Energy Breeding should constitute no less than 70-80 % of the overall diet by weight.

No vitamin or mineral supplements should be given to parrots whose staple food is High Energy Breeding formula. In the case of reiterated and/or numerous clutches, we suggest that birds have access to Psittacus Calcium Grit as a calcium source. Birds can regulate their calcium intake according to their needs.

Renew feeder with fresh food and water daily.

Once the package is opened, store in an air-tight container in a cool, dry place.

## DAILY INTAKE

Birds consumption varies between 5 and 10 % of body weight. Medium-sized species (for example, African Grey parrots) consume around 25-45 g per day.

## NUTRITIONAL INFORMATION

### COMPOSITION:

Cereal grains and products derived thereof, oil seeds, oil fruits and products derived thereof, vegetable oils (crude palm, refined linseed), legume seeds and products derived thereof, fructose, dried whole egg, minerals and products derived thereof, dried brewer's yeast, inulin (*Cichorium intybus*), marigold meal (*Tagetes erecta*), Mojave yucca.

### ADDITIVES:

**Vitamins:** 3a672a Vitamin A: 4,700 IU/kg; 3a671 Vitamin D3: 1,500 IU/kg; 3a700 Vitamin E: 400 mg/kg; 3a300 Vitamin C: 200 mg/kg; 3a710 Vitamin K3: 5 mg/kg; 3a820 Vitamin B1: 25 mg/kg; 3a825i Vitamin B2: 20 mg/kg; 3a831 Vitamin B6/Pyridoxine hydrochloride: 25 mg/kg; Vitamin B12/Cyanocobalamin: 100 µg/kg; 3a841 Calcium D-pantothenate: 20 mg/kg; 3a314 Niacin: 125 mg/kg; 3a316 Folic acid: 5 mg/kg; 3a880 Biotin: 800 µg/kg; 3a890 Choline chloride: 1,700 mg/kg; 3a160 (a) Beta-carotene: 6 mg/kg; 3a920 Betaine anhydrous: 250 mg/kg. **Trace elements:** 3b106 Iron (iron (II) chelate of amino acids hydrate): 28 mg/kg; 3b406 Copper (copper (II) chelate of amino acids hydrate): 1 mg/kg; 3b504 Manganese (manganese chelate of amino acids hydrate): 65 mg/kg; 3b606 Zinc (zinc chelate of amino acids hydrate): 24 mg/kg; 3b202 Iodine (calcium iodate anhydrous): 1 mg/kg; 3b814 Selenium (hydroxy-analogue of selenomethionine): 300 µg/kg. **Antioxidants:** 1b306 (ii) Extract of vegetable oils rich in tocopherols (rich in delta-tocopherol): 110 mg/kg; 1b304 Ascorbyl palmitate: 29 mg/kg. **Flavourings:** *Rosmarinus officinalis* extract: 0.02 g/kg.

### ANALYTICAL CONSTITUENTS:

Moisture 8.0 %, Crude protein 23.5 %, Crude fat 15.0 %, Crude fibre 5.1 %, Crude ash 5.8 %.

## PACKAGING

12 kg bag.
